The center deflectors must be in place when using this face to prevent the facing above the fireplace from becoming too hot. If this face is replacing a Lopi Grill (96200801), make sure to replace the center deflectors.

Hand-Rubbed Patina Finishes

The optional patina finish is hand applied by a skilled artisan to permanently alter the metal colors and texture of the face. Each face is individually hand-polished and fired in an oven which imparts unique color subtleties with no two finishes alike. The patina finish on your face is a "living" color and will age and antique over time. Enjoy the timeless, rich luster of your beautiful new face.

Installation Details - 564 SS, DF, HO

This face has an adjustable bracket that allows for different facing depths to be tucked under the face.
