**Inside Fit Panels** 

### Part Numbers

- DVS 4" by 6" 96100300
- DVS 8" by 10" 96100301
- DVS 10" by 13" 96100302
- DVL 4" by 6" 96100320
- DVL 8" by 10"" 96100321
- DVL 10" by 13" 96100322

The panels may be cut down in size and placed within the fireplace opening. When installed in this configuration, install the rheostat and on/off switch in the control panel under the firebox (see the owner's manual for details). For standard installations, we recommend you attach the rheostat and on/off switch to the upper right surround panel trim (after the trim is installed).

### **Installation**

Before installation the insert should be in place with the gas line and vent attached. Pull the insert out slightly to assist in the installation. Attach the side panels then the top panel and trim (see the directions below and on the following page).

and side trim piece. Align the trim to form a precise corner, then tighten the two set screws with a small standard screwdriver. Slide the trim over the panels. Place the spring clips behind the panels at the locations shown. This keeps the trim tight against the panel.

**Optional Knock-Out** 

An optional knock-out is provided on both sides if the power cord is routed behind the surround panel.
